CHIEF OPERATING OFFICER | TRANSFORMATION & GROWTH EXECUTIVE

Retail • eCommerce • Manufacturing • Consumer Brands • Global Operations

Accelerates operational performance through proven execution — grounded in real-world leadership, not theoretical frameworks.

Hands-on operating executive serving as a COO and strategic partner to founder-led and private equity-backed organizations ranging from **$50M–$600M+ in revenue**. Known for stabilizing operations during rapid growth, building scalable infrastructure, and aligning execution with revenue strategy without slowing momentum.

Brings a rare blend of operational rigor and entrepreneurial leadership — building operating cadence, clarifying decision rights, and implementing KPI discipline across supply chain, fulfillment, customer experience, and enterprise operations.

Selected Impact

- Improved operating margins from **5% to 18%** through cost-to-serve optimization and operating model redesign
- Increased service performance **10%–22%**, contributing to **37% growth in repeat purchase behavior**
- Scaled global operations spanning **70 facilities**, **500+ associates**, and multi-channel distribution networks
- Led **three ERP implementations**, improving visibility, accountability, and execution speed
- Supported post-acquisition integrations while maintaining operational stability

Core focus: execution stability, scalable operating cadence, margin protection, ERP readiness, and cross-functional leadership alignment.

CORE LEADERSHIP EXPERTISE

P&L Ownership • Operational Strategy • Organizational Design • Supply Chain & Logistics • Fulfillment Operations • Global Distribution Networks • ERP / Systems Leadership • Customer Experience Operations • Revenue Operations Alignment • KPI Development & OKRs • Cost-to-Serve Optimization • Omnichannel Fulfillment • 3PL Strategy • Vendor Negotiation • Inventory & Demand Planning • Lean Operations • Change Leadership • Talent Development • Executive Communication

PROFESSIONAL EXPERIENCE

Fractional Chief Operating Officer | Founder & Managing Partner

Roddy Strategy Partners | 2023 – Present

Founded and leads an operations advisory and execution firm providing COO and Chief Supply Chain leadership to growth-stage and mid-market retail, eCommerce, and consumer brands.

- Partner directly with CEOs and founders to stabilize execution, implement operating cadence, and scale infrastructure without slowing growth
- Lead cross-functional execution across supply chain, fulfillment, CX operations, organizational design, and systems strategy
- Design global operating models spanning inventory planning, distribution networks, transportation, and reverse logistics
- Build KPI frameworks including OTIF, OTD, fulfillment cost %, cost per order, and customer experience performance metrics
- Guide ERP, OMS, and WMS selection and implementation to improve visibility and decision-making
- Align Finance, Planning, and Operations teams around measurable OKRs tied to growth and margin expansion

---

Chief Supply Chain Officer

Modloft | 2022 – 2023

Rebuilt global supply chain and domestic distribution network during a period of operational transformation.

- Consolidated distribution footprint from **eight facilities to four** while maintaining required capacity through network redesign
- Led cost-to-serve initiatives improving delivery speed, margin structure, and operational consistency
- Enhanced ERP reporting and operational visibility, aligning logistics execution with customer experience expectations
- Introduced structured operating rhythm and KPI accountability across fulfillment and transportation

---

Senior Director, Fulfillment — Retail Division

Herman Miller | 2019 – 2022

Led reverse logistics and final-mile network strategy supporting national retail operations.

- Increased successful in-home delivery performance by standardizing 3PL procedures and embedding SOPs into operating systems
- Expanded throughput and utilization through process redesign and storage optimization
- Elevated service reliability while reducing operational friction across the fulfillment network

---

Contract Executive – Manufacturing & Supply Chain

2017 – 2019

Provided executive leadership across manufacturing and distribution environments navigating growth and operational complexity.

- Redesigned global distribution networks improving service levels while reducing operating costs
- Led manufacturing expansions while maintaining uninterrupted production and fulfillment
- Reduced DC damage rates by **40%+** and improved safety performance by **20%**
- Negotiated transportation and lease contracts delivering approximately **$500K annual savings**

Executive Vice President, Operations

Gardner White Furniture | 2015 – 2017

Enterprise operations leader responsible for execution, financial performance, and organizational scalability.

- Owned operational budgets and performance aligned to enterprise growth initiatives
- Built alignment across operations, supply chain, and customer delivery teams
- Improved throughput, margin discipline, and cross-functional execution

---

Chief Supply Chain Officer & Head of Repair Operations

Arhaus Furniture | 1999 – 2015

Senior executive responsible for national and international operations during significant retail and eCommerce growth.

- Led operating network spanning **500+ associates**, **60+ retail locations**, and **20 facilities**
- Expanded delivery capacity by **40%** through redesigned routing and remote-market strategies
- Delivered recurring transportation cost savings through fleet modernization and contract renegotiation
- Supported eCommerce growth exceeding **25% year-over-year** for five consecutive years
- Two-time **Chairman's Award** recipient
